

Rogue-Ti R30

Product Specification Sheet

The KGM R30 is a lightweight and capable precision rifle suppressor that sets the standard for accuracy, repeatability, recoil reduction, and remarkably quiet sound suppression.

Achieving unparalleled performance involves the efficient management of gas flow, minimizing disruptions to bullet flight and enhancing precision. Simultaneously, the engineered gas flow passes through the suppressor to significantly reduce flash, recoil, and noise, resulting in an exceptionally quiet shooting experience.

Crafted from titanium and laser-welded for durability, the optimized R30 for precision rifles is built to endure tens of thousands of rounds. For maximum versatility in mounting options, the R30 has rear 1.375x24 TPI (HUB) threads, and is equipped with a titanium 5/8x24 direct thread mount.

The R30 is an exceptional choice for those seeking the utmost in precision and quiet performance.

Key Features

- ⌚ Compact and lightweight titanium construction.
- ⌚ Integrated Gas Flow (IGF) system for eliminating over-gassing and reducing toxic gases for the shooter.
- ⌚ Adjustable Port End Cap (APEC) allows tuning of external gas flow to enhance recoil control.
- ⌚ Internal gas flow maintains precision and minimizes point-of-impact changes.
- ⌚ Reduced sound, pressure, and tonal variations in firing enhance shooter effectiveness.
- ⌚ Versatile HUB attachment (1.375x24 TPI) provides multiple mounting options, with a titanium 5/8x24 direct thread mount included.
- ⌚ Ideal for precision rifles applications.
- ⌚ Works with any .30 caliber cartridge, including .300 Norma, .300 PRC and .300 Win Mag.

Shown Actual Size

Caliber	.30 caliber
Construction	Grade 5 & 9 Titanium
Diameter	1.75" (44.5 mm)
OAL (w/o mount)	7.3" (185.4 mm)
Weight (w/o mount)	12 oz (340 g)
Attachment	HUB Mount (1.375x24), 5/8x24 Direct Thread included
Colors Available	Sniper Grey ■
