

# Rogue-Ti

# R65K & R30K

Proudly made  
in the U.S.A.

## Product Specification Sheet

The KGM R65K and R30K are compact and lightweight precision rifle suppressors that set the standard for accuracy, repeatability, recoil reduction, and sound suppression.

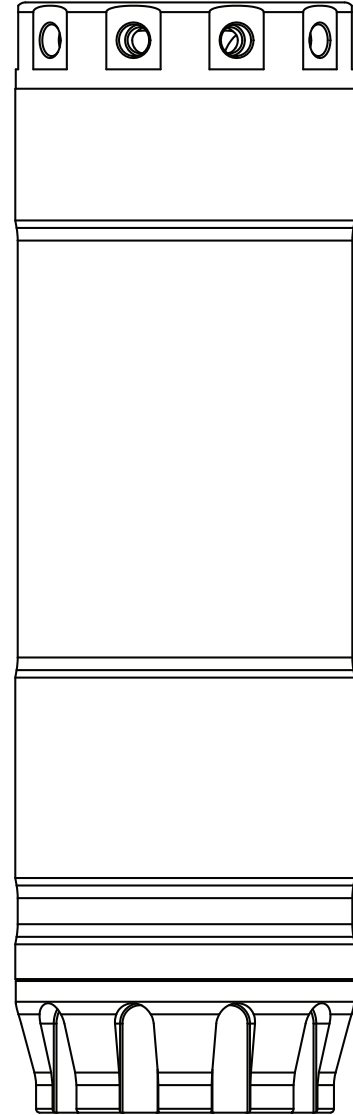

This is achieved by efficiently managing gas flow to ensure minimal disruption to the rifle's performance. By redirecting the gas flow away from the bullet's flight path, it enhances precision. Simultaneously, the engineered gas flow passes through the suppressor to reduce flash, recoil, and sound.

The R65K and R30K are constructed of titanium, laser welded together and engineered to last for tens of thousands of rounds. These models are uniquely engineered to maximize gas flow in a titanium can, ensuring they are uniquely suited for precision semi-automatic rifles, as well as lightweight magnum rifles.

Both the R65K and R30K have rear 1.375x24 TPI (HUB) threads for allowing maximum flexibility in mounting options, and are equipped with a titanium 5/8x24 direct thread mount.

### Key Features

- ⌚ Compact and lightweight titanium construction.
- ⌚ Integrated Gas Flow (IGF) system for eliminating over-gassing and reducing toxic gases for the shooter.
- ⌚ Adjustable Port End Cap (APEC) allows tuning of external gas flow to enhance recoil control.
- ⌚ Internal gas flow maintains precision and minimizes point-of-impact changes.
- ⌚ Reduced sound, pressure, and tonal variations in firing enhance shooter effectiveness.
- ⌚ Versatile HUB attachment (1.375x24 TPI) provides multiple mounting options, with a titanium 5/8x24 direct thread mount included.
- ⌚ Ideal for semi-auto precision rifles, compact precision rifles, and short-action magnum rifles.
- ⌚ Available as a 6.5mm bore or .30 caliber bore. The R65K offers a several additional dB reduction on 6.5 caliber rifles compared to the R30K.

Shown Actual Size

Caliber	6.5mm or .30 caliber
Construction	Grade 5 & 9 Titanium
Diameter	1.75" (44.5 mm)
OAL (w/o mount)	5.8" (147.3 mm)
Weight (w/o mount)	10 oz (284 g)
Attachment	HUB Mount (1.375x24), 5/8x24 Direct Thread included
Colors Available	Sniper Grey ■
