

R30T & R65T Rogue Titanium Suppressor

Product Specification Sheet

Rev: July 2024

The KGM R30T and R65T are lightweight and capable precision rifle suppressors that set the standard for accuracy, repeatability, recoil reduction, and remarkably quiet sound suppression.

Achieving unparalleled performance involves the efficient management of gas flow, minimizing disruptions to the rifle's operation. By redirecting the gas away from the bullet's flight path, precision is enhanced. Simultaneously, the engineered gas flow passes through the suppressor to significantly reduce flash, recoil, and noise. The Adjustable Port End Cap (APEC) feature allows tuning of external gas flow to help direct muzzle movement during recoil or maximize sound suppression.

Crafted from titanium and laser-welded for durability, the R30T is capable of handling cartridges up to .300 Norma magnum, while the R65T can handle any 6.5 caliber cartridge. The R30T/R65T attaches via a taper-lock muzzle brake, ensuring precise attachment and increasing suppressor service life.

The R30T and R65T stand out as exceptional choices for those seeking the utmost in precision and performance.

Caliber

7.62mm/.30 Caliber or 6.5mm

Length

7.3" (185 mm)

Width

1.75" (44.5 mm)

Weight (w/o mount)

13 oz (368 g)

Construction

Titanium

Muzzle Attachment

Taper-Lock Muzzle Brake,
5/8x24

Colors Available

FDE 

The R30T has been competitively tested and selected by many law enforcement agencies, serving on duty across the country.

The R30T & R65T attach to the rifle via KGM Taper-Lock Muzzle Brakes. Both models include a 5/8x24 mount. Additional thread pitch flash hidere are available in the following thread pitches:

- 1/2x28
- 5/8x24
- 3/4x24 Muzzle Index (SR25)
- M18x1
