

R338 Rogue Titanium Suppressor

Product Specification Sheet

Rev: July 2024

The KGM R338 redefines precision for magnum-caliber rifles, setting a benchmark in suppressors for long-range shooters. Crafted with precision from Grade 5/9 titanium and laser-welded, it strikes an optimal balance in size, strength, weight, and sound reduction, meeting the specific demands of large-caliber firearms.

Engineered for precision, the R338 exceeds expectations with its advanced gas flow design, intelligently redirecting gas to enhance accuracy and significantly reduce sound, recoil, and flash. The Adjustable Port End Cap (APEC) feature allows tuning of external gas flow to help direct muzzle movement during recoil or maximize sound suppression.

The R338 utilizes a taper-lock muzzle device to ensure a precise, secure, and repeatable attachment, while also extending the suppressor's service life. This suppressor stands as the premier choice for .338 Lapua, .300 Norma, and other large magnum cartridges, offering unmatched performance.

Caliber
Up to .338/8.6 Cal

Length
9.1" (538 mm)

Width
1.87" (47.5 mm)

Weight (w/o mount)
19 oz (538 g)

Construction
Titanium

Muzzle Attachment
Taper-Lock Muzzle Brake,
3/4x24

Colors Available
Sniper Grey ■

The R338 successfully tames and quiets large magnums such as the .338 Lapua, .338/300 Norma and .300 PRC.

The R338 attaches to the rifle via KGM Taper-Lock Muzzle Brakes. The R338 includes a 3/4x24 mount. Additional thread pitch flash hidere are available in the following thread pitches:

- 1/2x28
- 5/8x24
- 3/4x24 Muzzle Index (SR25)
- M18x1

Proudly
made in the
U.S.A.
