

# Pursuit Series

Ti Ultra-Lightweight  
Magnum Suppressors

## Series Info Sheet

Rev: Jan 2026

Introducing a new generation of KGM suppressors—developed over multiple years through an uncompromising pursuit of excellence in suppression. The **KGM Pursuit Series** is built for those who demand maximum performance in a minimalist package.

An advanced, precision-engineered baffle design delivers superior sound and recoil reduction for its size, all while maintaining a compact, ultra-lightweight profile at just **5.5 inches long and 8.5 ounces**. Optimized gas flow minimizes disruption to the bullet's flight path, preserving accuracy, reducing flash, taming recoil, and dramatically lowering sound signature. Everything you need. Nothing you don't.

Constructed from machined Grade 5 and Grade 9 titanium, the Pursuit Series delivers **magnum-rated** durability within defined barrel-length specifications. The KGM Ultra-Light Taper Mount (ULTM) muzzle brake requires no shims or timing and provides a precision taper interface for repeatable, concentric alignment and reliable zero retention—every time. Caliber-specific models ensure optimal performance for every firearm, available in **6mm (P6), 6.5mm (P65), and .30 cal (P30)**.

**Available Calibers:**  
6mm / .243 Cal, 6.5mm / .26 Cal,  
and 7.62mm / .30 Cal  
**Magnum-Rated\***

**Length:**

5.5" (140 mm)

**Width/Diameter:**

1.75" Diam (44.5 mm)

**Weight** (suppressor only)

8.5 oz (242 grams)

**Weight** (with ULTM mount)

9.8 oz (275 grams)

**Construction:**

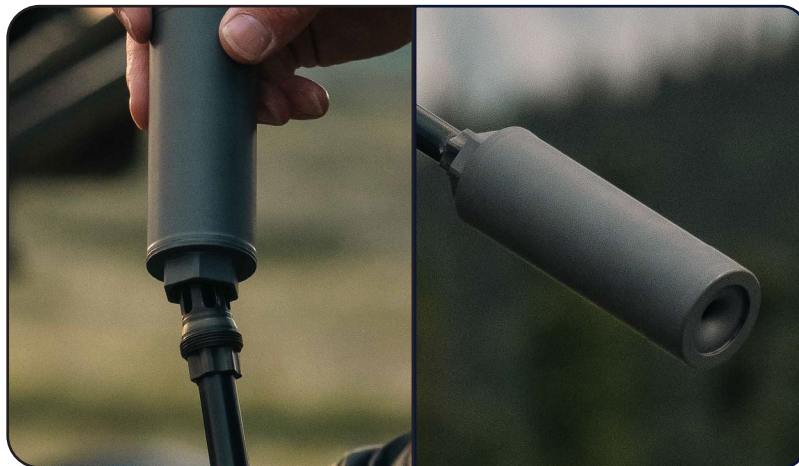

Gr. 5 & Gr. 9 titanium

**Muzzle Attachment:**

Ti Ultra-Light Taper Mount  
(ULTM), 5/8x24 thread

**Available Colors:**

Sniper Grey  
FDE

The vented, shrouded end cap of the Pursuit Series promotes controlled gas flow, delivering a smoother recoil impulse, improved accuracy, and a reduced visible flash signature.

The Pursuit Series uses the KGM Ultra-Light Taper Mount (ULTM). This all-titanium muzzle device weighs just 1.25 oz, delivering a truly minimal profile without compromising the accuracy and consistency KGM is known for.

**Available Threads:**

- 1/2x28 (A-ULTM-T-1-6)
- 5/8x24 (A-ULTM-T-2-65, A-ULTM-T-2-30)
- 9/16x24 (A-ULTM-T-3-30)

Proudly  
made in the  
U.S.A.
